Message

I am happy to learn that Eastern University is going to hold its 6th Convocation in a befitting manner. At the onset of this auspicious occasion, I would like to congratulate the graduating students, their parents, faculty members and the university authority on their collective contribution.

At present, Bangladesh is marching towards sustainable growth and development. Under the visionary leadership of Prime Minister Sheikh Hasina, the government has set the vision to become a middle income country by 2021 and developed one by the year 2041. Following the initiatives, the country has already gained the status of a middle-income country and is gradually moving forward to more prosperity within the stipulated time. To make the vision a success quality education can play a pivotal role in this regard. I hope that both private and public universities of Bangladesh will take all-out measures to equip their students with quality education and moral values. Thus, they will be able to meet up the national as well as international needs.

Convocation is a momentous event for the graduates as it celebrates the success of the students in their pursuit of higher knowledge. Besides, this occasion is also a proud milestone for a university as it acknowledges the achievements of the graduates and helps the university to evaluate and overview its overall activities. I urge the graduating students to strive towards building a society embedded with morality, equity and patriotism. I hope that the graduating students of Eastern University would render their acquired knowledge for materialising the dream of our Father of the Nation Bangabandhu Sheikh Mujibur Rahman to turn Bangladesh into 'Sonar Bangla'. I wish them a bright future.

I wish the 6th Convocation of Eastern University a grand success.

Khoda Hafez, May Bangladesh Live Forever.

Message

I am happy to know that Eastern University is going to hold its 6th convocation on 16 November 2019. On this occasion, I would like to congratulate the graduating students, their parents, faculty members and the university authorities.

The development of a modern society largely depends on the nature and standard of higher education. Higher education has enormous potential to promote prosperity and development of a country. The Awami League government has attached top priority to education sector in order to turn Bangladesh into a middle-income country by 2021 and a developed one by 2041.

Our government has sct up new schools, colleges and universities across the country during last ten and a half years. Thus, opportunities for higher education and research have been widened in the country. A time-befitting and scientific 'National Education Policy' has been enacted to ensure quality education. 'Private University Act-2010' has been formulated to develop the quality of education at private universities. Moreover, formation of an Accreditation Council to Control the quality of education at private universities is underway.

Opportunity has been created to set up permanent campus of world-class private universities in Bangladesh with the enactment of 'Cross Border Higher Education (CBHE) Act-2014'. Academic Innovation Fund, Bangabandhu and Prime Minister Fellowships have been introduced to promote research activities. To this end, Bangladesh Research and Education Network (BdREN) has been set up to get connected with the foreign research institutes and universities and to increase technical capacity of the universities.

I hope that the graduating students of Eastern University imbued with the spirit of our War of Liberation will contribute to building a Sonar Bangladesh as dreamt by the greatest Bangalee of all times, Father of the Nation Bangabandhu Sheikh Mujibur Rahman.

I wish the 6th convocation of Eastern University a grand success.

I am pleased to know that Eastern University is going to hold its 6th Convocation on November 16, 2019. It must be an auspicious occasion for the graduating students.

For the graduates, convocation is a moment of celebration and recognition. Celebration in the sense that the time and effort they have put into their long years of studies have come to a successful end. Now at last, they can afford to take a long cherished respite and with a happy smile can think back upon that arduous journey which has brought them to this moment of crowning glory. At the same time, this is also a recognition in that through the conferring of degrees the University and, through it, the nation as a whole, is formally acknowledging their academic achievement and skills. This is no mean thing as this formal recognition is what would be their raison d'étre in the competitive work field ahead. Let me congratulate the graduating students on this auspicious occasion.

The current government under the dynamic leadership of the Honorable Prime Minister Sheikh Hasina has made it a special point to augment the quality at all levels of education in order to translate the dream of Digital Bangladesh into a reality. But the government cannot accomplish this mission single handedly. I am sure Eastern University is well aware of the obligation and is working hard to set the nation on a sound footing in the days to come.

I wish the convocation a grand success.

Message

It is a matter of great joy to know that Eastern University is going to hold its 6th Convocation on November 16, 2019. On this happy occasion, let me extend my heartiest congratulations and felicitations to the graduating students, their proud guardians, the faculty members and the university administration.

The role of the private universities in the present context of our country cannot be overstated. Beginning of 90s of the last century, private universities have made a significant contribution to the enhancement of education at tertiary level. Over and above, by meeting the rapidly growing demand for higher education in a country of so vast a population, private universities are playing a vital role in the socio-economic development of the country. By equipping the graduates with the necessary skills and knowledge, they are also catering to the high demand of the competitive job market which is increasingly shaped by the global demand. At the same time, we should keep in mind that education and knowledge detached from ideals and human qualities are futile and might prove to be dangerous. So, a proper balance between skills and morals is what should be aimed at. I am sure Eastern University is doing well in this regard and is thus redeeming its pledge for quality education.

I wish the Convocation a complete success.

It is my pleasure to see Eastern University is holding its 6th Convocation on November 16, 2019. Students are going to receive their certificates formally after a long process of hard work and perseverance. On this occasion, I congratulate them on their achievement. I extend my good wishes to their parents for their dedication and time invested for their children.

I congratulate and appreciate all the members of Eastern University family for their commitment, dedication and hard work in maintaining quality and standard of education. I also invite all the graduates who will be the future professionals from Bangladesh to be inspired and guided by the philosophy and values of the Father of the Nation Bangabandhu Sheikh Mujibur Rahman and work relentlessly like him in order to fulfil their dreams.

The role Eastern University is playing in spreading higher education in Bangladesh is indeed praiseworthy. Our country is going through the phase of development challenges and I believe that the graduates will play required roles in addressing these challenges, leading the socio-economic development efforts launched by the Honorable Prime Minister Sheikh Hasina further ahead. I hope Eastern University will continue doing well and contribute much in the development of Bangladesh in all sectors by providing competent graduates.

I wish success of the event.

Message

It gives me immense pleasure that Eastern University is celebrating the 6th convocation to officially acknowledge the achievements of the graduates. When the admitted students successfully complete the academic and institutional terms and conditions required for their degree, the university has to arrange to formally give them their certificate in original by holding the convocation. I am happy that the university is fulfilling its obligation.

On this grand occasion, it is my privilege to convey my heartfelt congratulations to the graduating students, faculty members, officials, and my fellow colleagues of the Board of Trustees. I also convey my profound gratitude to the Honorable Chancellor of the University, the Prime Minister's office, the Ministry of Education, and the University Grants Commission for their unwavering support.

Since its inception in 2013, Eastern University has made a reasonable success over the years and is growing rapidly in terms of academic progress by providing quality education in its chosen fields. We are trying to make the university a prime destination for higher education and research. In the process, the university has set up its permanent campus in Ashulia, Savar, Dhaka over six acres of land. The permanent campus consists of all the modern amenities of an educational institution to face the challenge of the twenty first century. I believe, with cooperation from all concerned, we will be able to contribute to realize our dream towards reaching the goal of educated Bangladesh. I urge the graduates to start their professional life with a vision that will help not only themselves but the country to which they belong.

I wish the Convocation all success.

Dear Guests,

I also express my heartfelt gratitude to Ms. JoAnne Wagner, Charge d' Affaires at the U.S. Embassy in Dhaka, for accepting our invitation and for agreeing to contribute to this event as the Convocation Speaker.

May I also thank the Members of the Eastern University Foundation, Chairman and Members of the Board of Trustees, members of the Syndicate, Academic Council, Conveners and Members of different Committees of the University for their persistent effort to strengthen the University and for their contributions to achieve this milestone and for their presence at this memorable occasion.

Dear Guests,

Ladies and Gentlemen,

The mission of Eastern University is to become a globally recognized university in its chosen fields of higher education and research. We are aiming for the best in terms of quality. Our aim is to equip our students with the best of knowledge and skills that are essential for pursuing successful careers in their chosen fields in an increasingly competitive and globalized world.

Eastern University has by now earned its reputation for being one of the leading universities for its quality education, highly qualified and internationally acclaimed faculty, excellent teaching and a caring environment for students. We have extensive learning and co-curricular activities, successful internship and job placement, modern digitized library, extensive national and international networks in the academia, good governance and administration and indeed, a very convenient location of the campus.

In its short existence, Eastern University, although small in terms of number of students, has by now earned several national educational accolades namely, the University Mooting Team Championship not once but twice in the Bangladesh National Round of Philip C. Jessup International Moot Court Competition and participated in the International Moot court in Washington D.C. I am happy to announce that EU moot court team has become Runner Up this year in the National Round and has qualified to participate in the International Round to take place in Washington D.C. this year.

Since its inception in 2003, more than 7,000 students have graduated and today 2900 students are getting their degrees. I am happy to say that most of our graduates are either employed in prestigious organizations or have become entrepreneurs and successful professionals.

In order to make Eastern University an important international global partner in higher education, we have already signed MOU with more than 20 internationally renowned universities in the USA, Europe, Australia, New Zealand, China and Malaysia. Under these agreements, student-teacher exchanges, joint research projects, and faculty development training are being organized frequently. Some of our students are currently pursuing their higher studies in some of our partner universities.

To provide quality education to our students, Eastern University has always appointed highly qualified and dedicated teachers from reputed universities. At present, we have 97 qualified full-time faculty members and a number of distinguished guest faculty members from renowned universities at home and abroad. Currently, 77 faculty members are pursuing higher studies abroad, and some have already resumed their faculty positions upon receiving prestigious foreign degrees. The university also provides research fund to encourage faculty members to conduct quality research and to publish papers in reputed journals. As part of CSR (Corporate Social responsibility), we offer services and organize awareness programs to contribute to the welfare of the society. We provide full free tuition fees waiver to the children of Freedom Fighters. Many waivers are given on the basis of merit and need, to the students.

In keeping with the global trends and skills, we have introduced Chinese Language Course, Social Business Course and Specialist Training course on print and broadcast journalism in our university. These are pioneering and transformative initiatives relevant to the commerce and social development needs of the contemporary world.

To encourage and inspire the youth of Bangladesh and to prepare them to excel in their education, Eastern University regularly organizes Math Olympiad, Business Challenge, Battle with English, Youth Convention, Reception of GPA-5 holders in HSC examinations and Scholarship Awards to meritorious students. Besides, we have 16 clubs to encourage talents of students and develop co-curricular activities. I believe I have said enough to inform you of the university and its scholastic aspirations and accomplishments.

Let me now focus on the highlight of this event – the graduating students.

My dear graduates,
First of all, a big congratulations and a big hug from all of us to you,

I also take this opportunity to thank the parents and guardians who have made sacrifices and supported your education.

I also commend the faculty members and all other staff who have contributed to your scholastic journey at this university.
My very first advice to you the graduates – this is your day! Celebrate! Enjoy yourself, you deserve it!!

Convocation is a recognition that your good and hard work has paid off. You have proved your worth. You are now among the selected few that have earned the unique distinction of being the holder of prestigious tertiary degrees that you all have been conferred with.

However, may I also take this opportunity to remind you that while graduation is the end of one journey, it is the beginning of another.

You have crossed one of life's first hurdles which no doubt is an important one. More challenges are ahead but I am confident that from what you have learnt in your respective courses at this university and the skills you have acquired, all of you will move forward and achieve your aspired goals successfully, in the coming days. Please do join our Alumni program and keep us informed of your progress in life.

The vision of our great Liberation War was to establish a society without discrimination and corruption and an economically self-reliant nation. Literacy rate has increased to a great extent and the number of educated people has also gone up in the country. These are positive indicators of sustainable development. Yet, we have to go a long way to ensure the fulfillment of the goals for which over three million martyrs sacrificed their lives in 1971.

Eastern University boasts of delivering education with quality and morality. A course on Values and Ethics has been made compulsory for all undergraduate students of Eastern University to shape up the young minds to be the ethical leaders of tomorrow.

Aristotle once said, "Educating the mind without educating the heart is no education at all."I do hope that as the graduates and brand ambassadors of Eastern University, you will follow the ethical and moral path in your life and leave footprints of excellence with your professionalism, the attitude of caring and sharing in whatever you do and wherever you go.

Finally, I once again whole-heartedly thank you all, especially all the members of the Board of Trustees, Registrar, Deans of the Faculties, Chairpersons of the Departments, the teachers, administrative officers, and all those who worked relentlessly; for without their concerted effort, it would have been difficult to hold this Convocation successfully.

Ladies and gentlemen,

I thank you all for your attention and for being here to encourage us.

Allah Hafez.

Faculty and Staff Development Centre (FSDC)

The mission of the Faculty and Staff Development Centre (FSDC) is to help the faculty members and university staff in their career development by capacity building, skill improvement and positive attitude formation. The Centre caters to career building needs of both faculty members and administrative staff. It offers two programs – one is the Faculty Development Program (FDP) and the other is the Staff Development Program (SDP).

Faculty Development Program (FDP)

The explosion of knowledge, innovation and technology in all fields of learning have posed the new generation learners a challenge – a challenge of how, in a shorter time, to acquire the vast knowledge, analyze, assimilate and then apply them to find solutions of the problems in their life and workplace. Addressing students with heterogeneous background, goals, interests and intellectual capabilities is not an easy job for a university teacher. The FDP aims at equipping faculty members with principles, tools and techniques of teaching-learning to overcome this challenge that they are likely to face in the classroom. The training methods used are participative, interactive and learner-centered and on based hands-on experience.

The quality of teachers is one of the decisive factors for a student in choosing an institution for higher education. Teachers face continuous challenges in ensuring quality of teaching especially due to the ever-changing needs of students, the continuous development of information and communication technology and for the effect of globalization in general. The aims of the FDP, thus, is to orient, guide, train, coach and mentor the faculty members for better understanding of academic and administrative system, policies and practices of Eastern University; and for better classroom performance to meet the global standard. The FDP includes two modules. The aim of Module 1 is to orient the faculty members on existing academic and administrative system, policies and practice of the University and Module 2 is a three-day-workshop on teaching-learning methods that covers the topics to address the needs of the new millennial students.

The FDP also offers a variety of workshops/seminars on teaching-learning that include but are not limited to topics like – Research Methodology, Online Teaching & Learning, Innovation on Students' Performance Evaluation, Creative Question Setting, Examination of Answer Scripts and Grading, Teaching by Case Methods, Academic Leadership, Quality Assurance, Experimentation and Innovation in Teaching-Learning etc.

Staff Development Program (SDP)

Self-motivated, professional staff team is essential to support the academic team and the student body of an institution in its development. The aim of the SDP is to enhance the professional and personal development of EU staff. SDP creates learning opportunities that are designed to maximize the staff's understanding of EU administrative practices and procedures, work environment, values and ethics etc. for providing better service and to work towards professional growth. Psycho-Social Counseling Services (PSCS)

Counseling Services of Eastern University (EU) aims to provide accessible and compassionate psychological services to students, faculties, officials and staff. Using a short-term therapy model, we help students & Eastern community to improve their personal, social, and academic well-being.

Counseling: Counseling is a therapeutic relationship between you and a trained professional that helps you to understand the underlying causes and solutions of your problems. It is not advice or a 'quick fix'. And so it can take time to develop a partnership with your counsellor to help you find different ways of coping and dealing with your emotional, social, cognitive & academic difficulties and relationships.
The most essential benefit of counseling is providing a safe, confidential space where you can explore your psychological and emotional issues without prejudice and a chance to build a relationship with a counsellor you can trust to support you. Counseling should help you gain insight into why you're suffering from problems such as anxiety or depression; or help you heal the wounds of personal trauma. It can help you learn how to communicate better in relationships and managing conflict with confidence or simply discover how to live a more meaningful life.

Mission:
The mission of the university counseling service is to offer high quality psychological services that enhance personal, academic and professional growth and alleviate psychological distress or dysfunction.

Commitment:

- Maintain confidentiality
- Maintain human rights and equality
- Promote respect for the individual
- Follow ethical guideline
- Provide empathy and support
- Ensure access and equity

Service offered:

1-Counseling Session Services: It is a collaborative relationship which enables you to work together on resolving the issues through thanking therapy and empower you, rather than providing 'ready-made' solutions. Each counseling session takes 40 to 50 minutes, generally 6 to 8 sessions are taken, but it depends on the recipient's issues, condition and so on. Each session tends to build on others by getting deeper into the issues and encouraging you to take more and more lead in the process as you gain confidence, rather than making you feel dependent or reducing your choices. A person can discuss on issues such as communication difficulties, concentration problems, educational problems, relationship problems, stress, anxiety, anger, loneliness, depression, lack of confidence, low self esteem, sexual abuse, work & career related issues, confusion, adjustment problem, guilt feeling, psycho-sexual problem, loss feeling, phobia, parenting problems etc.
There is sometimes a myth that counseling will open you up, leaving you feel exposed and vulnerable. EU counseling services offer 4 types of session on the basis of a problem:

- Individual Counseling
- Peer Counseling
- Group Counseling
- Parent Counseling

2-Workshops, Seminars: Counseling services arrange and facilitate workshops on different psychological issues which help participants to learn positive managing techniques in solving mental difficulties they are facing in life. Psycho-Social Counseling Service (PSCS) organizes workshop & seminars on various issues such as social communication skills, anger management, stress management , exam anxiety, managing depression, self defense against sexual assault, relaxation & meditation , acceptance reality & self, self confidence, pleasant personality, positive parenting, managing job stress etc.

3-Others Activities: The PSCS also works in close collaboration with other offices, services & programs of the university.

Highlights: From May 2013 to August 2019, PSCS facilitated about

- 5500 counseling sessions
- 150 workshops & seminars
- 200 orientation classes

EASTERN UNIVERSITY

6th CONVOCATION 2019

dream • believe • achieve

LIST OF GRADUATES

Faculty of Arts

Faculty of Arts is one of the four faculties with which Eastern University was born in 2003. It began its journey with M.A. in ELT (English Language Teaching) program, and one semester later B.A. (Hons.) in English was added. There are now two programs in the Faculty: a four year B.A. (Hons.) in English and a one-year M.A. ELL (English Language and Literature).

A well earned degree in English can open innumerable job opportunities at home and abroad. English is an international language and there is a great demand for competent users of the language. Graduates in English get preference in jobs ranging from teaching to media, banks, multinational companies etc. English graduates do quite well at the BCS Examinations and find it helpful to pursue MBA studies, both academically and professionally, as this combination is best for top corporate jobs.

The English Program at Eastern follows a need-based syllabus approach combining well-balanced language and literature courses in order to cater to the job needs of its graduates. Besides, the foundation language courses at the undergraduate level are module-based, providing an intensive teaching-learning class environment. The Department has an English Language Club and holds extra classroom activities such as poetry recitation, debate, drama, vocabulary/spelling contests to inspire and encourage learners to become adept users of the language. Apart from the well-endowed central library of the university, the Department of English has its own seminar library cum reading room where students can grow their reading habit.

The Faculty of Arts has as its Dean, Professor Tahmina Ahmed, who has taught English at Dhaka University for about two decades and had also been the Chairperson of the Department of English at Dhaka University (2014-2016). Supporting her there are 20 highly qualified and highly motivated full-time teachers some of whom have degrees and training from abroad. In addition some very senior and nationally renowned academics from Dhaka University and Jahangirnagar University are present as adjunct faculty. The Department is a very lively place with various activities involving students and faculty throughout the year. The students of the department actively participate in the fifteen clubs of the university to ensure their personal development. The Department also organizes a lecture series titled "Teacher Talk" where the faculty members of the Department and also teachers from different institutions at home and abroad share their research and other interesting works with the students. A signature program of the Department is "Literary Adda" – this is in fact a platform for the students and the faculty members to cater their creativity and explore their talent(s) that was yet to be addressed. It also holds competitive programs for students of other institutions regularly. Moreover, the Faculty of Arts offers a Chinese Language course for all interested people to contribute towards professional development.

The Department of English rightfully believes that it is 'The Nest for the Best' and works towards ensuring an environment where the students not only accomplish their academic pursuits but also evolve to be a better human being.

The Faculty of Business Administration of Eastern University certainly has the highest qualification among all the business faculties of the private universities in Bangladesh. There are nine full time faculty members with doctorate degrees from the different universities of the world. There are eight full time professors, three associate professors, 15 assistant professors, and the rest are senior lecturers and lecturers, who had been outstanding graduates of Dhaka University or hold Master's degrees from reputed foreign universities.

To facilitate the teaching and learning of the students, the faculty has air conditioned classrooms with multimedia projectors and audio visual facilities. To address the needs of the students, the faculty provides fully equipped computer lab with internet facility, a modern digital library with good number of books, journals and digital resources, photocopy services, modern cafeteria, common room and prayer room for the female students, auditorium, a full-time doctor with adequate medical facilities, and sufficient premises for academic and co-curricular activities of the students. Corporate leaders and renowned personalities often visit the campus to share their experience and knowledge with the students.

Faculty of Engineering and Technology

The Faculty of Engineering & Technology (E&T) of the Eastern University aims at producing quality graduates imbued with the spirit of ethical values and equipped with knowledge and skills appropriate to the fast changing world so that they can face the challenges successfully wherever they are and also to contribute to social and economic development of the country. With highly qualified faculty members and meticulously designed international standard curricula of the academic programs, this faculty aggressively pursues the goal of providing the highest quality education.

The Faculty of Engineering and Technology is the largest faculty of Eastern University in terms of number of students. The teaching-learning methods used here are participative, interactive, experiential, learner-centered and are based on hands-on practice depending upon the nature of the course being taught. At present this faculty has two departments: the Department of Computer Science and Engineering and the Department of Electrical and Electronic Engineering.

Department of Computer Science and Engineering

The Department of Computer Science and Engineering offers a program of B.Sc. in Computer Science and Engineering [B.Sc. (CSE)]. The duration of B.Sc. in CSE is four years and is divided into 12 semesters. To obtain B.Sc. in CSE, students need to complete 150 credit hours with a minimum CGPA of 2.50. Our main task is to prepare students for careers in Software and Hardware industries or to pursue advanced graduate studies at home and abroad. Also a part of our mission is to ensure a comprehensive and client-oriented teaching environment that emphasizes depth, originality and critical thinking of computer science and related professional values.

Department of Electrical and Electronic Engineering

The Department of Electrical and Electronic Engineering (EEE) offers a program of B. Sc. in Electrical and Electronic Engineering [B.Sc. (EEE)] which is already an IEB accredited program. The total credit hour of the B.Sc. (EEE) program is 149. The program includes courses from (1) general areas, namely: English, Physics, Chemistry, Mathematics, Arts, Social sciences, Accounting, and (2) Engineering disciplines, namely: Electrical and Electronic Engineering as major area consisting of (a) Power (b) Electronics (c) Communication and (d) Control and Automation. The program offers some of the courses as core courses and students have option to choose a few courses as elective for specialization. The curriculum for the B.Sc. (EEE) has been designed to make the program goal-oriented and to fulfill the present and future needs of the age. The Department offers the program in two shifts. Shift 1 is for HSC/A'level passed students and shift 2 is for students who have passed diploma in relevant engineering field.

Faculty of Law

The Faculty of Law, Eastern University (EU), is one of the premier law schools of the country, which has always attracted the best legal minds academically and ideologically, thereby creating an inspirational exchange centre of knowledge. Particularly, it is known by its excellent teaching staff most of whom have graduated from the best law schools at home and abroad. Professionally active and industrially engaged, these academics mentor the students with great care and skill.

Our faculty imparts legal education- both theory and practice. The goal is to equip graduates with a solid foundation in law and a sound understanding of its place in our society. EU's law curriculum reflects the changing requirements of the legal profession and the need of the society in the globalizing world. Students are given extensive training on various forms of legal drafting, trial advocacy and mooting.

Students who have graduated from the Faculty have shown excellent passing rate in the Bar Council Membership Examination, Judicial Service Commission Examination and Bangladesh Civil Service Examination. Alumni of the Faculty include, among others, practicing lawyers, judges and other government officials, corporate personnel, and university teachers.

Rich in computer facilities and library holdings, the Faculty provides students with opportunities of browsing electronic books, journals, magazines and other materials in addition to printed literatures. Through regular public lectures, seminars and workshops etc., students get the opportunity to conduct their academic research and to update themselves with latest knowledge development.

The Faculty of Law is located in Dhanmondi providing a vibrant environment for the students to grow and evolve. It also made its mark by winning the Best Memorial Award in Henry Dunant Moot Court Competition, 2011.
